The PDC Caring MR Suite® is an MR patient experience suite that empowers patients and caregivers to instantly personalize the MR Suite to every patient's preference. By tapping on the Caring MR Suite® App, they can choose a favorite 4K Nature Theme or movie, color of their ambient lighting hue, and in-room music. Customers installing this solution have seen improved patient satisfaction, less need for sedation, less failed scans, less movement during exams, increased HCAHPS scores, competitive advantages in local market, and increased Technologist satisfaction.

Easily add the PDC 32" HD Portable Video Display (PVD) for in-bore viewing during an exam. PDC offers many other unique solutions for MR suites including RF Shielding, RF Privacy Glass, Custom Cabinets, HD Cameras, and more!

Case Study - Improved MR Patient Experience & Productivity
