

PDC 6x6' Image Ceiling with perimeter RGB Accent and White LED Lighting

IMAGE CEILINGS & VIRTUAL WINDOWS

PDC Oval Image Ceiling with embedded 4K Display and Directional Task Lighting

- Improve Patient Comfort
- Create a Calming Environment
- Elevate Patient Satisfaction
- Increase Exam Productivity

Transform your windowless space into a calming and patient centric environment in your exam rooms and/or patient waiting areas. PDC's Image Ceilings and Virtual Windows relax patients by creating a sense of openness that eliminates claustrophobic fears of being in a confined space. Our image ceilings and windows light up any space with your choice of nature or custom images, warm white LEDs or your patient's favorite color. Our LED lighting options include warm white and color changing RGB, with or without Touch Control integration.

Create a serene and comforting atmosphere that elevates the patient, family and staff experience. Our image ceilings and windows enhance the patient experience with the openness and beauty of nature.

Image Ceilings can be customized to a size and shape that fits your space. We also provide custom photography services if you would like to personalize your suite.
