

GE Design Certified MR Cassette "Mini Clinic"

HD, HDx, MR450w, MR750w

The USA Trademarked Cassette buildings are the only Underwriters Laboratories, Inc., (UL)[®] classified material component and UL classified component design structures on the market. GE Cassette buildings are the only fully relocatable buildings available on the market that can relocate without the need to de-install the MR system.

Begin your architectural planning process today for your permanent building. Take delivery of your own "fixed site" MR system in 12-14 weeks in a spacious building. Simply "transplant" your MR system into your completed construction and redeploy or sell the Cassette building. How more "lean" and cost effective can it be to bringing tomorrow's MR technology to your patients today!

BUILDING FEATURES & STARTING PRICE: \$353,000
