Find complete control of Suite video, music and lighting options here.

Tap "Select Theme" tab at top left to view Theme options. Tap to select Theme. Tap "Main Controls" at top left to return.

# Technologist Controls:

**System On/Off:** Tap SYSTEM ON and SYSTEM OFF at top right

**Emergency Mode:** Tap to turn lights on bright and mute audio

**Suite Settings:** Options to customize suite and troubleshoot here

**Lighting Color:** Tap Color Wheel to choose a color. Use Color Square to modify color intensity

**Video Source:** Tap to select a Video Source. For DVD, next set-up DVD manually as usual, using remote to start video

**Audio Source:** Tap to select a source. For My Device, find audio jack, and setup music on device as usual. Ensure device volume is up, music playing

**Display Rotation:** Tap to change display orientation if needed. Often only "180" is needed. Tap "Normal" to return to feet-first orientation

**Menu:** Tap Menu icon at top left to return to Home and view more options.

**Unsure of what is selected?** Simply tap your desired option!
