Quick Start Guide

PDC's UV-C LED BORE DISINFECTION SYSTEM

Step 1: Watch the 6-minute UV-C Quick Start video and read below **STEPS** before proceeding **(scan QR code above or go to http://bit.ly/3FBbSDy)**

Step 2: Position UV-C cart near end of patient table farthest from magnet bore. Ensure it's at least 5 ft. from bore

Step 3: Remove **SECTION 1** from cart and place it on patient table with its support legs near magnet bore

Step 4: Remove **SECTION 2** from cart and place it on patient table with its support legs near end of table farthest from bore

Step 5: Connect both sections together as shown in the video

Step 6: Move the patient table into the bore

Step 7: Plug the **GREY** UV-C cable into **SECTION 2** as shown in the video

Step 8: Plug the **BLACK** power cord into a wall outlet - **BLUE** light starts flashing***** for 60 seconds while UV-C System initializes (during steps 8-11)

Step 9: Position UV-C cart so lights are visable from viewing window

Step 10: Turn key to **ENABLE SYSTEM** - key must be turned on while **BLUE** light is flashing

Step 11: Push Power button beside key switch - while **BLUE** light is flashing
UV-C System will not start until motion sensors detect no motion in the room

Step 12: Walk out of room and close the door
- Refer to UV-C System **LIGHT KEY** on back
- If motion is detected before cycle begins, **GREEN** light will flash rapidly until no motion has been detected for 30 seconds

Step 13: Disinfection cycle begins and lasts 3 minutes
- **BLUE** light is **ON**, **GREEN** light is flashing slowly
- If cycle is interrupted, turn key to **DISABLE** and start at **Step 10**
- Once **ALL** 3 lights on the cart are **ON** - Disinfection cycle is **COMPLETE**

Step 14: Enter room and turn key to **DISABLE** - **BLUE** light starts flashing

Step 15: Unplug the **BLACK** power cord and hang it on UV-C cart

Step 16: Unplug the **GREY** UV-C cable and hang it on UV-C cart

Step 17: Return patient table to Home position

Step 18: Disconnect **SECTIONS 1 and 2** and hang each section on UV-C cart
- Support legs near bottom of cart facing in

*If an error condition occurs, the **RED** lights will flash intermittently. See back of card.
