

## AUDIO CONTROL

- **MY DEVICE AUDIO:** Included with your suite is a My Device audio cable to play music through your suite speakers with a compatible device
- **MY DEVICE HOW-TO:**
  - Locate the My Device audio cable consisting of a headphone jack with white adapters attached. Ensure it is connected at the back of the black PDC box at the "Line in" port. Connect adapter if needed
  - Connect a compatible music-playing device, like a phone or tablet
  - Play music on the device; ensure volume is up and music is playing via device
  - Ensure far left light to right of "Line" on the PDC box is lit as above. If not, press the gray button to left of light
  - Ensure center power light is lit as above. If not, press the gray button to the left of light
  - Red light indicates volume level
  - Use App Suite Levels "Master Audio" to further control volume, P5
